SOLUTIONSHEET

Don't Let Your Network Slow Down Your Business!

Let HughesON™ Managed Services enhance your network's performance so you can create a better user and customer experience and deliver on your business promises.

No matter how you approach your network and digital infrastructure, there are many day-to-day challenges. Perhaps you face the need to:

- Expand bandwidth as you add users and applications to the network.
- Rein in connectivity costs associated with MPLS.
- Make your network more flexible to meet today's fast-paced environment and rate of change.
- Improve your customer experience by eliminating the network challenges that are leading to poor application performance.

Tackling these issues while staying on top of the latest software updates and security practices is no small matter.

HughesON is a suite of end-to-end Managed Services designed to solve these very real business challenges in an agile, scalable, and secure manner. Our solutions:

- Optimize application performance.
- Improve the employee experience.
- Elevate customer engagement.
- And, position your enterprise for whatever the future may hold.

Benefits of HughesON Managed Services:

- Reduces your risk across the entire network.
- Accelerates benefits through faster and standardized deployments.
- Meets your changing needs through scalable solutions that grow with your business.
- Provides greater protection through an integrated approach to security.
- Creates a solid foundation for your digital initiatives.
- Improves employee and customer experience.
- Improves operational efficiency.
- Gives you more time to focus on your business and your customers!

WAN

Managed Broadband

Gain reliable and best-fit connectivity for each network location, including hard to reach remote locations.

Managed Routing

Get end-to-end high availability and secure site access across your entire wide area network, by simplifying the management of all routing equipment.

Managed SD-WAN

Create a secure, enterprise-grade, high performance WAN by transforming your ordinary broadband connections.

LAN

Managed Switching

Simplify and gain greater control over your distributed network's many switches, ensuring they are consistently configured for optimum reliability, performance, and enhanced security through Network Access Control.

Managed Wi-Fi

Connect employees and guests to critical applications seamlessly and securely via fast and reliable Wi-Fi access.

Managed VoIP

Enjoy affordable, high-quality voice communications—with far more flexible features than traditional phone lines.

Managed Security

Feel confident in conducting business safely and securely with Hughes Managed Security services.

Managed Digital Signage

Better engage employees, customers, and visitors through a range of immersive digital experiences.

Hughes is proud to have **over 100 customers** who have been with us **for 10 years or more.**

"We have made a strategic commitment to utilize cloud applications. To do that, the network has to be rock solid. We continue to work with Hughes to deliver our cloud applications reliably, securely, and with great performance."

Bob Graham, CIO
BevMo!

"The HughesON solution gives us the throughput and security we need to support our customers' growing digital demands. It also makes us better prepared for the future as we expand our applications to support our guests."

Drew Martin, CIO
Jack-in-the-Box

"As a longtime Hughes customer and user of the HR platform, we are very familiar with its benefits and how Hughes managed services improve our operational efficiency. In our experience the security and scalability of the Hughes HR platform are unrivaled."

Maria Fidelibus
Vice President of Technology, QuickChek
