

HS3600 Corporate DVR

Expandable DVR for the Distributed Enterprise

Video communication for the distributed enterprise is now a reality. Whether you are broadcasting a live town hall meeting or distributing on-demand videos for training and information, the Hughes HS3600 Corporate DVR appliance makes it possible. Just like a home DVR, the Hughes Corporate DVR lets users view, record, and participate in a wide range of events. But as a corporate appliance, it adds the benefit of centralized control and distribution. The Hughes HS3600 Corporate DVR also allows you to expand functionality with add-on cards. You now have the ability to put high-quality, rich-media content in front the right audiences at the right times and on the devices they wish to use.

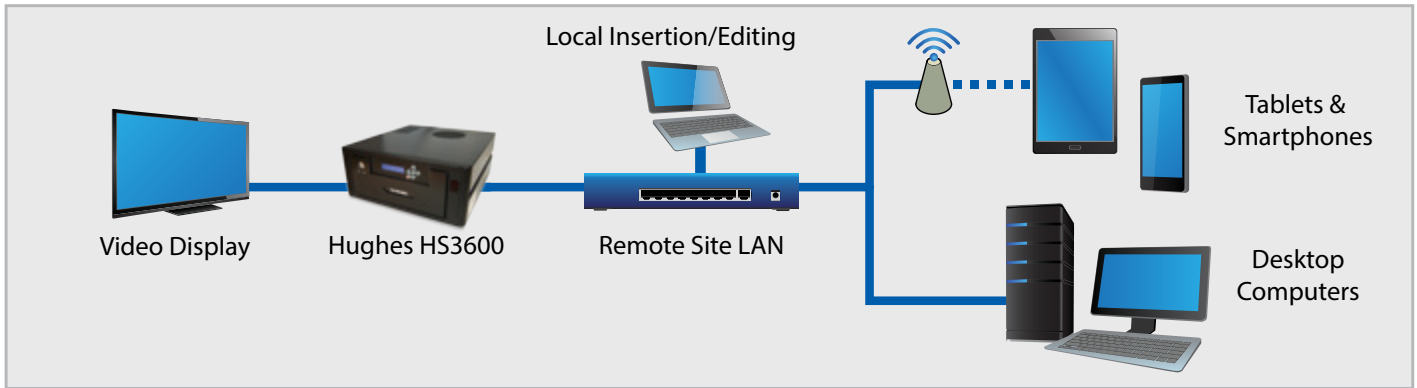

Highlights:

- Provides users with access to on-demand or live content anytime and anywhere
- Access to content from an easy-to-use program guide and Web interface
- Enables the multicast distribution of data to geographically dispersed locations
- Edge appliance allows live and time-shifted viewing of corporate content
- Optional configuration enables IT patch and update distribution to remote sites
- Easy to install and configure

- Centralized control over tuning and recording
- Multiple NICs with virtual firewall option
- Receive on multiple interfaces simultaneously
- Content distribution client included
- Browser-based configuration and management
- SNMP for enterprise management
- Robust EPG with support for site specific viewing authorizations

Specifications

Size & Weight	Height: 5.0" Width: 12.5" Depth: 14.25" Shipping Weight: 28 lbs
Processor & Memory	Intel Quad Core i5 CPU 8 GB DDR3 Memory Intel H61 Express Chipset
Storage	Two 1TB HDD – software RAID standard
Graphics	Intel HD2500 Graphics Processor
Video Support	Native HDMI or DVI-D or VGA output
Audio	HDMI Port supports audio output Support for HD audio
Communications	10/100/1000 LAN ports USB 2.0 Ports IR Input – requires proprietary remote Front Panel LED with Buttons RS232 Serial Port
Expansion	PCI Express x16 Slot PCI Express x1 slot Two PCI Slots
Operating Requirements	Line Voltage 100-240 V Operating Temperature 32° to 140° F (0° to 60° C) Relative Humidity 8% to 80% noncondensing

Communicate and Grow Your Business

There is a strong link between employee engagement and business performance. Engagement is the emotional commitment that an employee feels toward the enterprise. Engaged employees are more productive, deliver better customer service, and generally go the “extra mile” to help grow the business. Employee engagement is developed through direct, regular, and open communication with senior leadership.

Solutions based on the Hughes HS3600 Corporate DVR open the door to improved communications and allow your organization to deliver live and time-shifted video communications to the distributed edges of your network. The Hughes HS3600 Corporate DVR gives users the option to view content when, where, and on the device they want.
