

## Hughes Learning Portal

**Learning Management System – Easily Manage Online Training for Employees, Partners, and Customers.**

### Learning Management Made Easy

Hughes Learning Portal is an easy-to-use eLearning solution that delivers and tracks training for employees, partners, and customers. The simple interface makes it easy to store, manage, deliver, and track training and communication such as new employee orientation, certification, product training, etc., so you can achieve a quick and measurable return on investment. It's ideal for small and medium businesses, as well as departments within large enterprises.

Hughes Learning Portal solution takes the headache out of managing your online training needs and lets you focus on what moves your organization forward—getting information into the hands of your employees, partners, and customers.

### Learning Portal Applications

- New Employee Orientation
- Channel Partner Training
- Sales Training
- HR Communications
- Product Demonstrations
- Compliance Training
- Dynamic Marketing Collateral
- Customer Surveys
- Change Management
- And Much More...

## Hughes Learning Portal Pricing Models

Hughes Learning Portal is available in two different pricing models:

### User Model

This model provides UNLIMITED data transfer for up to 500 named users. Select this option if you have fewer than 500 users who you expect to frequently access the Portal each month (high data transfer needs.)

### Data Usage Model

This model provides Portal access to an UNLIMITED number of named users, as well as 5 GB of data transfer per month. Select this option if you have over 500 users but only require a small percentage of those users to access the Learning Portal each month (low data transfer needs).

Base Product Elements	User Model	Data Usage Model
Users	500	Unlimited
Telephone Support	Unlimited	Unlimited
Email Support	Unlimited	Unlimited
Live 1-on-1 Training	Unlimited	Unlimited
Data Storage	1 GB	5 GB
Data Transfer	Unlimited	5 GB/month
Classroom Tracking	Unlimited	Unlimited
Create Quizzes	Unlimited	Unlimited
Create Surveys	Unlimited	Unlimited
Custom URL	Yes	Yes
Custom Branding	Yes	Yes

Additional Product Options	Description
Single Sign-On	Uses existing corporate accounts, providing secure passthrough from the company Web site to the Learning Portal
Web Services	Through a programatic XML interface, the admin can bulk export raw data from the Learning Portal into other systems
Private Branding	Removes the “Powered by Hughes” image from the Learning Portal, leaving a clean environment for users
Co-Branding	Replaces the “Powered by Hughes” image with a “Powered by <Your Company>” image.
Additional Users	Additional seats can be added to the system in increments of 250 as your needs grow (User Model)
Additional Data Transfer	Additional data transfer can be added to the system in increments of 3 GB/month as your needs grow (Data Usage Model)

## Features and Benefits

### Fast and Flexible

- Fast and Scalable Implementation – Go live in minutes
- Free Support – Access our world-class support team via telephone or email at no cost
- Solution Flexibility – No setup or termination fees
- Flexible Content Assignment – Choose exactly who has access to specific content, whether by user, group, or everyone
- SCORM Content – Use any SCORM-compliant authoring tool such as Hughes Presenter
- Non-SCORM Content – Use any type of file including Word, Excel, PPT, PDF, and more
- Multiple Languages – Learners can access the system in their native language
- Student Forums – Allow students to discuss learning topics in either a moderated or nonmoderated format

### Web Based

- High Security – Your private-branded secure LMS portal is completely hosted by Hughes
- Entirely Web Based – No need to install extra software or plug-ins
- Anywhere, Anytime Access – Allow users to access training 24/7 or at specific times
- One-Click Upload of Content – Upload content directly from Hughes Presenter in just one click
- Single Sign-on – Take advantage of the optional single sign-on module for intranet integration

### Customizable

- Custom Learner Dashboard – Easily communicate with learners. Display information such as a real-time twitter feed, upcoming or recently assigned training, or more
- Custom User Permissions – Set user permissions from standard or custom roles
- Custom URL – Set up your branded Hughes Learning Portal to work as part of your own domain name so your customers and employees feel as if they are always on your Web site

- Individual Learning Paths – Create custom learning paths for users, depending on needs
- Multiple Brands – Customize the site using multiple brands within the same system
- Customizable Interface – Dynamically change the look and feel of the portal to fit your corporate identity or Web site

### Reporting

- Managerial Reporting – Give managers access to reporting that is restricted to managed users
- Reporting Dashboard – Provides a high-level graphical view of how the system is being used
- Powerful Custom Reports – Real-time reports allow you to monitor and track user progress and performance as well as completion rates
- Detailed Student Transcripts – Provide student transcripts with comprehensive learning history
- System Notifications – Automatically notify users when new content is available
- Quiz and Survey Authoring – Easily create quizzes and surveys for evaluation and reporting

### Tracking

- Instructor-Led Tracking – Keep all learning records in one system, whether the training is on-line or live. Includes the ability to schedule classes, register users, print class rolls, and track attendance
- Webex Integration – Schedule and register users for Webex sessions, all from within Hughes Learning Portal. Attendance data is then automatically saved for reporting purposes
- Certification Management – Automatically create certificates for students upon completion. Automatically manage training that must be completed annually
- Built-in Assessments – Create assessments with multiple types of questions including True/False, Multiple Choice, Multiple Select, Ranking, and Matching. Advanced features include the ability to randomize and pool questions
